

Raj Travels Testing

Prepared by: Kunal Maheshwari

Assignment: Testing - Assignment 3

Objective

This document contains the required deliverables for the Raj Travels flight booking application:

1. Test Scenarios
2. Test Cases
3. Defect Reports

Deliverable 1: Test Scenarios

- TS-001: Verify Location (India/International) radio button selection.
- TS-002: Verify Trip (One Way/Round Trip) radio button selection.
- TS-003: Verify Location is mandatory.
- TS-004: Verify Trip type is mandatory.
- TS-005: Verify From field is mandatory.
- TS-006: Verify To field is mandatory.
- TS-007: Verify From and To cannot be the same.
- TS-008: Verify Departure Date is mandatory.
- TS-009: Verify Return Date is mandatory.
- TS-010: Verify Return Date is greater than or equal to Departure Date.
- TS-011: Verify calendar opens on clicking date icon.
- TS-012: Verify date cannot be edited manually.
- TS-013: Verify valid date format (DDMMYYYY).
- TS-014: Verify Cabin dropdown values.
- TS-015: Verify Nationality dropdown values.
- TS-016: Verify Adults dropdown values (1-6).
- TS-017: Verify Children dropdown values (0-6).
- TS-018: Verify Infants dropdown values (0-1).
- TS-019: Verify Search with valid data.
- TS-020: Verify appropriate error message for invalid data.
- TS-021: Verify successful navigation to results page.
- TS-022: Verify minimum passenger values.
- TS-023: Verify maximum passenger values.
- TS-024: Verify Economy cabin search.
- TS-025: Verify Business cabin search.
- TS-026: Verify First cabin search.
- TS-027: Verify different city combinations.
- TS-028: Verify mandatory field validation messages.
- TS-029: Verify Round Trip booking flow.
- TS-030: Verify One Way booking flow.

Deliverable 2: Sample Test Cases

TC ID	Scenario	Steps	Test Data	Expected Result	Technique
TC-001	Valid Booking	Enter all valid details and click Search	Delhi→Mumbai, valid dates	Results page displayed	Positive
TC-002	From=To	Select Delhi in both fields	Delhi/Delhi	Validation message	Negative
TC-003	Return<Departure	Return date before departure	10JUL/09JUL	Validation message	BVA
TC-004	Adults Min	Adults=1	1	Accepted	EP
TC-005	Adults Max	Adults=6	6	Accepted	EP
TC-006	Children Max	Children=6	6	Accepted	EP
TC-007	Infant Max	Infants=1	1	Accepted	EP
TC-008	Cabin Dropdown	Open Cabin list	-	Economy, Business, First displayed	Positive
TC-009	Mandatory Fields	Leave mandatory fields blank	Blank	Validation message	Negative

Deliverable 3: Defect Reports

BUG-001 - Return Date earlier than Departure Date accepted

Severity: High

Priority: High

Steps to Reproduce: Select Return Date earlier than Departure Date and click Search.

Expected Result: Application should display an error message.

Actual Result: Application displays flight results.

BUG-002 - Cabin dropdown is not selectable

Severity: Medium

Priority: High

Steps to Reproduce: Click Cabin dropdown.

Expected Result: User should be able to select a cabin.

Actual Result: Cabin list cannot be selected.

BUG-003 - Same From and To locations accepted

Severity: High

Priority: High

Steps to Reproduce: Select same city in From and To and click Search.

Expected Result: Application should show validation error.

Actual Result: Application displays flight results.

Conclusion

This assignment demonstrates the identification of test scenarios, preparation of manual test cases using standard testing techniques, and professional defect logging for the Raj Travels flight booking application.
